

NMT (NEUROMUSCULAR MONITORING)

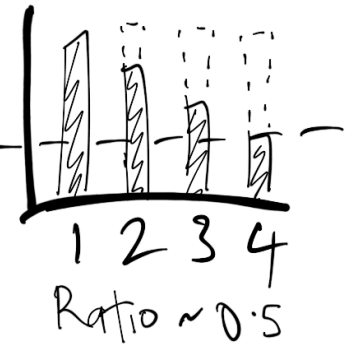

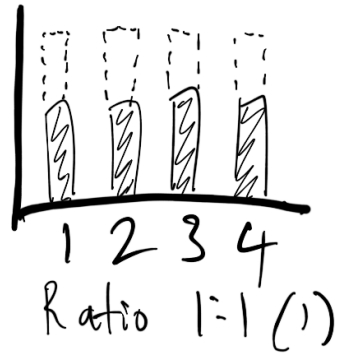

NMT

TOF
-x4 2Hz stimuli

NMB
Nondepolarising

twitches {
2-3 = reversible
1-2 = adequate block
0 = not reversible/profound

Ulnar nerve

DBS
(Double Burst Stimulation)

- x2 bursts separated by > 12 sec
- More easily noted visually *
- Response similar to TOF

PTC
(Post Tetanic Count)
- More sensitive *

Tetany
